- SAP HANA
- SAP ECC
- SAP ON CLOUD
- SAP ANALYTICS
- ENTERPRISE MOBILITY
- 24X7 SUPPORT

OCI MIGRATION

Accelerate migrations of existing enterprise workloads, deliver better reliability and performance for all applications, and offer the complete services customers need to build or migrate innovative cloud applications on cloud infrastructure.

GlobalVox experience with more than 350+ migrations to the cloud successfully has honed the approach and methodologies for effective migrations.

OCI Migration approach enables organizations to to move applications and data to cloud with minimal or no changes, applications are effectively lifted from existing on-prem hosting environments and shifted as-is to new hosting premises i.e in cloud.

Organizations are making the shift to the cloud-due to application modernization and need for solid business continuity plans, tight RPO / RTO objectives, compliances, governance and many more reasons, Expensive, outdated onpremise solutions that are difficult to maintain for IT and inefficient for business users drive the cloud momentum.

Workload migrations to cloud-based services is changing enterprises IT Landscape, tapping into the scale and agility of cloud and helping enterprises to convert from CAPEX to OPEX

INFRASTRUCTURE MANAGED SERVICES

GlobalVox has years of experience with improved methodologies and approach servicing enterprise-level customers and supporting infrastructure managed services hosted on-premises

GlobalVox has years of experience with ever-evolving methodologies and approach servicing enterprise-level customers and supporting infrastructure managed services hosted On Cloud.

We help organizations reduce costs, boost efficiencies, and improve enterprise system availability with IT best practices and latest technologies allowing them to stay competitive

We formulate a strategy to maximize opportunities on Cloud to ensure the IT infrastructure is always operating to the fullest on the Cloud platform.
